

REPAIR & OVERHAUL EXPERTISE

MODERN APPRENTICESHIP VACANCIES

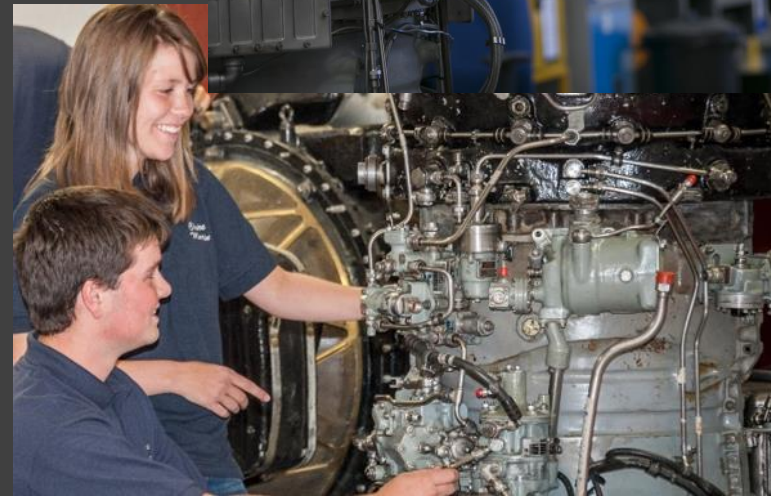

RWG (Repair & Overhauls) Limited is a Siemens and Wood Company. We are a world leader in the repair and overhaul of gas turbines and their components. We maintain a global client base and have established a world class reputation for quality engineering in this field.

If you are leaving school and enthusiastic to start work within the engineering industry or looking for an alternative to university, then why not consider our Modern Apprenticeship programme in the following disciplines:

- Mechanical Fitter
- Engine Component Inspector
- Project Engineer

Desired qualifications:

- National 5 grades A-B or equivalent in Maths and Physics
- National 5 grade A-C or equivalent in English

TO APPLY:
