

What makes SCHOLAR different?

We offer over thirty courses for National 5, Higher and Advanced Higher. We draw on the knowledge and experience of teachers working in Scotland. They share their wealth of experience as educators to improve outcomes for young people. Our courses can be accessed anytime, anywhere so your children can learn at school, at home and around busy schedules.

"SCHOLAR is a fantastic online resource. My son used it a lot when he was revising for his Advanced Higher Chemistry exam."

Parent

"It's a great resource - it really helped me last year in studying for Higher Biology as it was interactive and it gave a break from just reading textbooks constantly!"

Student

"An excellent resource that compliments the new CfE qualifications - the only full resource that has been specifically developed with CfE Modern Languages in mind."

High quality online courses National 5, Higher and Advanced Higher

Interactive and engaging online courses for schools across Scotland. National 5, Higher and Advanced Higher learning material available for over thirty SQA CfE courses.

Independent learning

Study independently, anytime, anywhere. Courses can fit around school schedules, with short activities, clear goals and compelling content to encourage students to progress independently.

Instant feedback

Varied and valuable activities, tests and quizzes offer instant feedback to help improve critical thinking, reasoning and learning skills, allowing students to practice and build confidence.

Live homework sessions

Live homework and ask a tutor sessions encourage social learning and discussion helping the student to make fresh discoveries and form new ideas.

Progress reports

Monitoring students' progress with the reporting system will enable teachers to help guide the way students learn and develop.
